Arthur Augagneur

Computer Science Engineering Student

PROFILE

Preparatory-cycle student at EPITA, curious and rigorous. Passionate about software development and cybersecurity, I tested my skills at hackathons (Passe Ton Hack). With 9 years of scouting behind me, I bring team spirit and energy.

EDUCATION

EPITA · Integrated preparatory cycle (engineering school)
2025 – present

Baccalauréat (French high-school diploma) · Lycée des Chartreux, Croix-Rousse
2020 – 2025

PROJECTS

Dual Redemption
2D multiplayer game in Python/Pygame: socket-based client-server, level editor.

Remote server
Raspberry Pi 5 as a remote development environment (Tailscale, Mosh).

EXPERIENCE

Sales advisor, Bouygues Telecom · May – July 2026, Caluire-et-Cuire
Welcomed and listened to customers, explained technical offers clearly, showed teaching skills and tact in every situation.

Assistant ski instructor · Dec. 2024 and Feb. 2025 (one week each)
Led children during group lessons; set up and tidied the work area.

Observation internship · February 2021
Video game studio Break First: beta-tester experience.

SCOUTING

Volunteer work for an abbey as part of my scout movement's yearly project (July 2025): land clearing and wall restoration.
